INTRODUCTION TO ST. FRANCOIS-XAVIER MARRIAGES

Cuthbert Grant was the founder of St. Francois-Xavier which was originally named Grantown after him. The Cheval Blanc or Whitehorse Plain attracted both Aboriginal and non-Native settlers to the point where Roman Catholic missionaries arrived in the early 1820s. This had originally been requested by Lord Selkirk to Bishop Plessis of Quebec and in 1823 the first priest-Fr. Thomas Destroismaison-was appointed to serve the Faithful of the new mission of St. Francois.

This small book covers the marriage records of this parish for the years 1834-1900. Names of parents as well as former spouse names for widows and widowers are included.

ABOUT THE INDEXING BY CATEGORY

GROOM: Names appear in this work usually how they were written in registers with original spellings and sometimes type-o's. If a name is misspelled such as "Kunningham" for Cunningham, it will appear with entries in the common or 'generic' form.

BRIDE: Names appear in this work usually how they were written in registers with original spellings and sometimes type-o's. If a name is misspelled such as "Kunningham" for Cunningham, it will appear with entries in the common or 'generic' form.

PTS. GROOM: Parents of the groom. This usually includes the maiden name of the mother or identity of a previous spouse of the groom if he is a widower. If the latter is the case it will be written in French headed by the word 'Veuf' for widower. Adoption info is also included herein. Sometimes names are not easily deciphered without having to 'take a guess'. When this happens such names will not be included herein.

PTS. BRIDE: Parents of the bride. This usually includes the maiden name of the mother or identity of a previous spouse of the bride if she is a widow. If the latter is the case it will be written in French headed by the word 'Veuve' for widow. Adoption info is also included herein. Sometimes names are not easily deciphered without having to 'take a guess'. When this happens such names will not be included in the index.

PL/DATE: Place/Date. All places mentioned only concern St. Francois-Xavier. Originally this work was intended to be a much larger undertaking with several parishes included but time and circumstances did not permit this.

SOURCE: The sources consulted were original registers committed to microfilming many years ago and then digitized in the 21st century. The page below will provide appropriate links.

THE MARRIAGES

For an explanation on the index category by category see the appropriate page above. This index is in the old-fashioned style of a “repertoire” with parents’ names of marrying persons provided. Eleven registers were consulted covering the years 1834-1900.

Nouns are almost always included in their original spellings.

Included are identities of deceased spouses in the case of widow/widowers.

Some entries appear in smaller types for name size or space considerations.
